Jan 2023

Baccalaureate in Computer Science

Montfleury High School

Description

Full-Stack Developer and Computer Science student with experience in building MERN stack applications. Skilled in creating responsive UIs, efficient APIs, and managing SQL/NoSQL databases. Passionate about clean code, teamwork, and impactful projects.

Internship Experience

Jan - Feb 2025 | Tunis, Tunisia (1 month)

Full Stack Developer

Xsustain

Stack: NextJs(Client side),React(Admin dashboard), Node.js, Express.js, MongoDB

- Developed a web platform that connects business owners with potential buyers and investors.
- Built user dashboards for business owners to list businesses for sale or investment, and an admin panel to manage listings and users.
- Created RESTful APIs with Node.js and Express.js; managed data with MongoDB.
- Deployed the application on a VPS and ensured performance and reliability.
- Provided documentation and assisted with client training and post-launch support.

Jul - Sep 2024 | Tunis, Tunisia (3 months)

Junior Full Stack Developer

Xsustain

Stack: React, Node.js, Express.js, MongoDB

- Developed an e-commerce website for Castor Pharma to sell their Collagène Booster product, with features for product management, shopping cart, and order tracking.
- Contributed to a task management platform by implementing new features and enhancing existing functionality for better user experience and efficiency.
- Built a crowdfunding project tracking platform where a single project owner can submit and manage their projects (completed, ongoing, or failed), with a dedicated admin dashboard for oversight.
- Implemented REST APIs, structured MongoDB schemas, and deployed the production-ready solution on both a VPS and Netlify for client review.
- Delivered documentation and user support post-deployment.

Jan - Feb 2024 | Tunis, Tunisia (1 month)

Junior Developer

Centre National des Technologies en Education

Stack: React, Node.js, Express.js, MongoDB

- Restructured educational platform used by the student on www.bacweb.tn .
- Redeveloped an existing website with MERN at the National Center for Technologies in Tunisian Education .
